### A WORD TO SUBSCRIBERS.

Owing to the stringent rules adopted with carriers by a contemporary local journal which takes alarm from the rapid growth of the GAZETTE circulation, our paper was not delivered, yesterday morning, to some subscribers in the upper wards. We are about to reorganize our system of delivery, and no trouble from this quarter can hereafter annoy us. It is a matter of congratulation with us that our subscribers refuse to accept our neighbor's journal as a substitute for the GAZETTE, and we hope they will adhere to their good judgment and refuse to pay for the *gratuitous* copies of papers which may be "run in" upon them.

### MAIL GLEANINGS.

THE Siamese twins are traveling *together* in Michigan.

DANIEL MCINTOSH, a hero of 1812, died at Albany, N. Y., on Sunday.

THE heavy wool firm of J. & A. D. Gonsalus, Troy, N. Y., have failed.

THE first American Sunday School was formed in Pittsburgh in August, 1809.

TAYLOR CASKEY was run over and killed by a street car in Philadelphia, Sunday night.

THE Allen street Presbyterian Church celebrated its fiftieth anniversary on Sunday last.

HON. JOHN MORRISSEY is "in training" at Willard's Hotel, Washington. Somebody calls him the great ex-*pounder*.

NEXT Monday will be one of New York's great holidays—the anniversary of the evacuation by British troops in 1783.

A NEGRO WOMAN of Philadelphia has turned professional burglar, and was arrested in the act of attempting to rob a residence.

RICHARD LAWRENCE, who attempted to assassinate General Jackson in 1835, is still living, an inmate in the Maryland Insane Asylum.

MARY JANE WRIGHT, a negress, has been arrested in Washington, D. C., for murdering her new born infant, and throwing it into an out-house.

THERE were sixteen deaths from cholera in Cincinnati during the week ending Saturday last. In Philadelphia there were five deaths from the same disease last week.

THREE YOUNG MEN were arrested in Philadelphia on a charge of stealing several bundles of printing paper valued at $250, from the warehouse of W. H. Filtcraft & Co.

THE fast urchins of the "Hub" have fallen into a way of appropriating other people's horses and buggies and driving till they are tired about the streets. They then turn them loose to get home the best way they can.

THE PRICES in the Philadelphia family markets are coming down. Butter sells at 60 cents per lb.; sirloin, 30 cents; venison, 30 cents; partridges, 60 cents per pair; chickens, 23 cents per lb.

A LAD twelve years of age has been arrested in Washington on two charges of daring robbery. The great capital is a bad place to raise children—perhaps, they see too much of the Congressmen.

PROF. GIESLER is to lecture in Detroit on the "Religious and political condition of Italy." In the same city General W. G. Halpin is announced to lecture upon the "Impending crisis in Ireland."

IT appears that the Resident National Union Executive Committee of the Johnson party did not "go up" financially, as stated, but have a handsome balance to their credit in their Washington depositing house.

H. L. HULBERT, the reformed drunkard, is lecturing in Utica, N. Y., where Alf. Burnett is also holding out to crowded houses. Rev. W. C. Steel, of Auburn, N. Y., formerly of Utica, has entered the lecture field for this winter.

THE Philadelphia *News* says that the health of that city is remarkably good, but few deaths occurring, and winds up by saying that their "best and most renowned city physicians may be seen down in the marshes engaged in shooting." The latter fact may account for the scarcity of deaths.

DETROIT is a famous spot for sensations. The latest is the tale of how an orphan girl named Catherine Bruner was wooed, but not won, by her aged guardian; how a young beau made his appearance and became a suitor for her hand, and how he fooled the old gentleman by eloping with the girl and making her his wife.

THERE will possibly grow out of the seizure by the Government of large distilleries in New York a very interesting legal question. The manufacturers, who are charged with defrauding the Government out of an immense revenue, claim that they were engaged in the manufacture of burning fluid. For the privilege of doing so they were to pay a direct tax of fifty dollars per annum to the Government. In the manufacture of burning fluid twenty per cent. turpentine and 80 per cent. cologne spirits or alcohol are used. The distiller pours the turpentine into his mash tubs, and distills altogether, turning out burning fluid. Honestly every gallon of alcohol should pay two dollars revenue into the treasury of the government, but as these men did not make spirits, but burning fluid, they have thus far saved the tax upon every gallon manufactured. In chemistry there is nothing easier than to separate alcohol from turpentine. After the burning fluid passed the Inspector, it was converted into its two separate elements, and the manufacturers realized an immense profit. As the case stands the question will prove very interesting. The fraud is very apparent, but it is quite probable through the meshes and technicalities of the law the offenders may escape the penalty.

A number of cabinet councils were being held in London. The *Times* says they can hardly agree on the subject of reform, as the measure is scarcely likely to be in so forward a state as to permit an elaborate discussion of its details, and it, therefore, presumes the attention of the council is occupied by departmental business, amongst which, the *Times* hopes, is included the army organization.

It is announced that ex-Governor Eyre, of Jamaica, would be arraigned at the Central Court of London in about ten days, for the Jamaica murders.

NEW YORK, Nov. 20.—By the Bremen's mails we have the following additional items of European news:

The British Secretary of State for war has decided upon granting a substantial reward to the family of the now unfortunate deceased, Mr. Jacob Snider, the inventor of the new breech loader. The funeral of Mr. Snider, who was an American, took place at Kensol Green Cemetery. Only a few hours before his death, Mr. Snider informed a friend at his bedside, that he had a new secret with regard to the great principle of national defence, more important than any he had yet discovered. I will tell you the secret to-morrow, said he, when you call to see me. The morrow came, but he was dead, and his secret with him.

General Menabrea, who negotiated the treaty of peace between Austria and Italy, has arrived in Paris. He is said to be charged with the task of arranging the restitution of the private property belonging to the dynasties of the two Sicilies and Barma.

It is stated that for eleven months neither rain nor snow has fallen in Pekin, and the greatest distress prevails in consequence in that part of China.

The *Moniteur de l'Armee*, of Paris, publishes an article upon the inferences drawn by Paris journals relative to the proposed reorganization of the army, and says that the National Guard will never be anything but a reserve. Above all, it is necessary to have an army before the formation of a reserve. The effective strength of 400,000 men is a peace establishment and will not therefore be reduced. The object of the Commission appointed to report on this question will be, to discover the best means of constituting a reserve always available, more considerable and better instructed and exercised than the present.

The Prussian War Office publishes a statement to show that it was not the superiority of the needle gun, but of the men who carried it, that gave victory to the Kingdom in the late war. The whole consumption of cartridges during the campaign was only seven to each infantry soldier. In the hottest engagement the highest figure was twenty-three per man over those present. During the war nine hundred cannon were brought into play, and each gun fired forty rounds.

A Prussian ministerial order had been published at Hanover, introducing a system of general liability to military service among the inhabitants this year.

The telegraph and courier service through Russia and Mongoda, via Kiachta, the frontier town, appears to have improved. The time occupied by the couriers, between Kiachta and Tientsin, has been reduced to twelve days. The telegraph wires are complete from London to Kiachta and work well, a telegram having been received in London in fourteen hours.

Captain James Murphy, an alleged American Fenian, now of the Mount Joy Convict Prison, has had a summons and complaint served upon Colonel Fielding, Deputy Adjutant General, and Major Bacon, Governor of the military prison, Arbor Hill, Dublin, to receive one thousand pounds damages for assault and false imprisonment. The summons is signed by Sir Michael Loughlin and Mr. Isaac Butt, as counsel, with Mr. John Lawless, as attorney.

A Paris correspondent, writing under date of Nov. 6th, says: A gentleman just returned from a trip through Gallicia, informs me that Russia is concentrating troops upon the frontier in large numbers and at a rapid rate; that a rumor is prevalent there, as it is here, that a treaty has been, or is being, made between Russia and Prussia, the principal object of which are the destruction of what little amount of national existence Poland still retains, by the extinction of the name and the absorption of the territory into that of Russia and Prussia.

Then is to follow the march of Russia to the Bosphorus, and the conversion of minarted mosques of Stamboul into Christian temples. Austria is looked upon now as the sick man—brother in affliction to the Turk—and is to be dismembered and reduced to such a small proportion as to be forever incable of doing further harm or disturbing the peace of Europe. The recent appointment by Austria of Guiocroski, a Pole, and a decided representative of the Polish element, as Governor of Galheid, is looked upon as an act of defiance by Russia and Austria, which seems now disposed to raise a Polish question, and undoubtedly, by such an act, seeks the sympathy and prospective aid of France and England in the prospective struggle which must ere long come for the settlement of the whole Eastern question.

### Arrest of Supposed Robbers.

LOUISVILLE, Nov. 20.—Seven men were captured on Saturday near Mitchellville, Tennessee, by a band of detectives of the Louisville and Nashville Railroad, acting with the United States Cavalry stationed there, and lodged yesterday in the military prison in this city. They are supposed to be connected with the robbery of the recent pay train.

### Decision of a Tennessee Judge.

NASHVILLE, Nov. 20.—At Murfreesboro, on Saturday, Judge Henry Cooper, of the Circuit Court, decided the present State Legislature bogus and the franchise law constitutional in adjudicating the case of Gilbert vs. Sherbrook, Commissioner of Registration for Rutherford county, for refusing to issue voting certificates to the Sheriff.

### FROM CANADA.

Gold in Canada—The Abduction Cases—Confederation Rumor Contradicted—General Napier's Successor.

TORONTO, November 20.—The discoveries of gold at Madoc are corroborated and there is little doubt as to the extent or richness of the deposits.

Both the Colonial and foreign officers are making strict investigation into the Lamirand's abduction cases.

The statement that Bishop Horan is going to England to oppose the Confederation is contradicted.

Major General Stisted, C. B., will succeed Major General Napier on the Staff in Canada at the commencement of next year. General Stisted served with distinction in Persia, and through the critical periods of the Indian mutiny.

### Imposing Demonstration of the Masonic Order in Baltimore.

BALTIMORE, November 20.—The demonstration made by the Masonic Brotherhood here, to-day, was a very imposing one. From five thousand to six thousand were in the line of procession, dressed uniformly in black, with regalias, and carrying the symbols of the order. President Johnson and Governor Swann will witness the ceremony of laying the corner-stone of the new Temple. The President, wearing his Masonic regalia, reviewed the procession from the steps of Gov. Swann's residence.

The procession was formed with the Junior lodges in advance. Among the lodges from Washington, Alexandria, Norfolk, Petersburg, Lynchburg, Winchester, Shepherdstown, and other points in Virginia, and among the commanders of the Knights Templar, there were those from Philadelphia, Pa., New York, New Jersey, Louisville, Ky., and Washington.

As soon as the procession had gathered around the site of the new temple, and the positions assigned to the various lodges had been taken up, the Grand Lodge of Maryland was opened with the ceremonies appointed for such occasions.

The Most Worthy Grand Master, John Coates, directed the exercises, which consisted of the usual impressive ritual and the chanting of several hymns written for the occasion. The ceremony was concluded by pouring oil, wine and corn upon the stone, the Grand Master making solemn invocation at each libation.

J. N. B. Latrobe, Esq., delivered the oration.

### Disgusting Prize Fight.

WASHINGTON, Nov. 20.—About eight o'clock this morning, the expected prize fight took place at Johnson's Landing, below Alexandria. The contestants were Mike Carr *alias* English, of this city, and W. H. White, of Baltimore. Forty-four rounds were fought in thirty-six minutes. On the seventh round White's shoulder was dislocated. It is said that English fairly won the fight, but the referee claiming that a foul blow was struck by him, gave the victory to White. The backers of English refuse to pay the bets until the matter can be submitted to pugilistic authority for their decision.

### Star Brick Works Destroyed by Fire.

Number "62" was signalled this morning in mournful tones by the great fire alarm bell at the Court House, and within five minutes after, every engine in the city was on its way to that station—the Independence Engine house. We immediately departed likewise and found the extensive Star Fire Brick establishment of Messrs. Lemon, Kingan & Co., located on the Allegheny Valley Railroad, foot of Allegheny street, enveloped in a vast sheet of flames. The steam engines were all upon the ground, but owing to the great scarcity of water in that remote neighborhood, could do but little effective service. The building was one storied and of iron-clad brick, covering about one-fourth of an acre of ground. The roofing, walls and timbers were completely destroyed, although the kilns and flues are thought to have escaped serious damage. Fortunately the wind was blowing in a north-eastern direction, else the destruction of property must have been greater, as the extensive lumber yard and planing mills of Mitchell, Gillespie & Co. adjoined the burning building upon the other side. Within an hour after the alarm the flames were subdued.

We were unable to learn the origin of the fire, but it was doubtless caused from the flues, which were in use at the time, setting fire to the dry timbers which were immediately over them. Two or three men were working at the time at the rear kilns and did not discover the flames till they had gained great headway. The loss will probably approximate to ten thousand dollars, which we learn is fully covered by insurance.

### The Result of an Election Bet.

During the recent election campaign Mr. George Allsouse, of Allegheny, bet Mr. Julius Moore, of this city, that General Geary would not receive five thousand majority in the State. Mr. Allsouse bet his guitar against ten dollars. Last evening the loser of the bet made his appearance at the Mayor's office in a state of blood, and announced that the blood was the result of the bet. Mr. Allsouse stated that about half past five o'clock in the evening he was walking up Wylie street with Mr. Smith, his brother-in-law, a well known musician in this city, when they met Mr. Moore, another well known musician, and stopped for a few moments conversation with him. The talk reverted to the bet, and Mr. Moore suggested the propriety of handing over that guitar. Mr. Allsouse made some excuse which Mr. Moore affected not to believe, and at length the conversation having waxed warm, the parties indulged in epitnets not pleasing to each other. As a finality Mr. Moore, according to his accuser, called Mr. Allsouse a "d—d liar," and then knocked him down. The blow damaged the countenance of the latter gentleman considerably and knocked out one of his teeth, but as the tooth was a false one, and was picked up afterwards, the damage was not so serious. An information for assault and battery was made, and a warrant for the arrest of Moore was issued.

### Probably Fatal Accident.

On Monday evening Norris Shay, a laborer at the Grain Elevator, on the corner of Liberty and Washington streets, met with a shocking accident which may prove fatal. He was riding on the bumper of a freight car which was being hauled into the lower story of the building to be filled with grain. The track is laid between two rows of pillars which support the building, and while the car was in motion, Shay attempted to jump to the floor. In doing so he was caught between the pillar and the car and terribly crushed, all of his ribs being fractured and severe internal injuries inflicted. As soon as the accident was discovered the injured man was removed to his residence at the corner, of Washington and Prospect streets, and medical aid summoned. He was still living last evening, but his recovery is considered doubtful. He has a wife and two children.

### The Meteors.

The non-appearance of the great celestial phenomenon of November 13th, 1833, on the night of the 12th or 13th, should not lead us into decided incredulity of its reurrence, as the following extract from Humboldt's *Cosmos* will confirm:

"The acute mind of Olbers led him almost to predict that the next appearance of the phenomenon of shooting stars or fire-balls, intermixed, falling like flakes of snow, would not recur until between the 12th and 14th of November, 1867."—*Harper's Edition, Page 127, Vol. 1.*

Humboldt witnessed a grand display of meteors and fire-balls in South America, November 13th, 1799, which would make a period of *thirty-four* years between the sublime exhibitions. That their recurrence has not been periodically recorded in the past, may be due to a cloudy sky.

### Charge of Fraud.

Mayor Morrison had before him, yesterday morning, a man named Harkins, on charge of fraud. Harkins has been contractor for a considerable amount of grading in Allegheny, and it is alleged that he has endeavored to defraud the laborers in his employ out of their wages. The case was heard yesterday morning, and some twenty-five witnesses were examined on the part of the prosecution. Mr. H. had graded the Diamond Squares in Allegheny, and had also been doing some excavating in McClure township. On completing the work, it is alleged that he removed his carts, horses, barrows and tools to a place of safety, drew the money due him, and was about leaving the city without paying his employees. In default of bail he was committed for trial.

### The Prestley Scandal—Official Report of the Presbytery Committee on Publication.

When a minister of God falls from the path of virtue and morality the community suddenly develop a strong desire to sink him even to the lowest depth of degradation. The case of the unfortunate and erring Dr. Prestley is a sad example of this truth. He has been excoriated to a fearful extent by a gossiping community, and his dark deeds of cruelty have been made darker and heralded to the world through every accessible avenue. Thus far we have refrained from publishing any of the current gossip concerning the case, out of a spirit of charity for the wrecked Doctor of Divinity, believing that all reported of him could not be true. We awaited the action of the Presbytery, and to-day publish the report of its Committee on Publication: Here is the document:

The committee appointed by the Monongahela Presbytery to make a statement of the case of Dr. James Prestley, lately tried in said Presbytery, would present the following:

At a meeting of Presbytery, held at Union, September 18th, 1866, Dr. Prestley stated that certain rumors touching his character as a Christian and a minister were in circulation in the community, and asked Presbytery to investigate said rumors.

In compliance with his request, a committee was appointed, which, at a meeting of Presbytery held in Lawrenceville, October 2d, reported that the rumors were of such a character that they should receive a thorough and impartial examination.

In accordance with the report of this committee, a committee was raised to prepare a libel against Dr. Prestley. At a meeting of Presbytery held in the First Church, Pittsburgh, October 16th, said committee reported a libel.

The investigation of the libel began at a meeting of Presbytery held in the Fifth Church, Pittsburgh, October 29th. Presbytery continued in session eleven days, and the charges contained in the libel were patiently investigated. About thirty-two witnesses were examined.

The libel contained three charges. The first was "Unkind, cruel and violent treatment of his family." The second was the use "of vulgar and profane language." The third was, "Unfaithfulness to his marriage vow."

The first and third of these charges were *unanimously* sustained. The second charge was also sustained, but not unanimously, so far as "*profane language*" is concerned. Under these charges were fourteen specifications, which were all sustained, nine of them unanimously.

Presbytery, however, were careful to say "that by the language of the third charge they did not find Dr. Prestley guilty of adultery, or even charge him with that sin."

The charges and specifications against Dr. Prestley being found proved, Presbytery indefinitely suspended him from the exercise of the ministry, and from membership in the church.

When the sentence was pronounced, neither the Moderator or the members of the Presbytery could restrain their feelings. Every minister and elder seemed to feel his responsibility, and every heart was moved with sympathy for the brother, on whom Presbptery was compelled to pass this painful sentence.

### A New Lamp.

In no locality throughout the entire country have the terrors of petroleum and kindred illuminators been so keenly felt as in our city and its neighborhood, and in no place should any invention tending to promote safety in the burning of petroleum, benzine, naphtha or anything else, be hailed with such a welcome as here. Among the recent inventions of this class, the Lightning Lamp, arranged upon an entirely new principle, is well worthy of examination. A tube extending through the chamber separates the wick from the oil, and the draft is applied at the bottom of the chamber. Explosion seems to be impossible since the light would be obliged to pass between a close fitting wick and the tube, into a second tube, before reaching the oil chamber. A gas is generated from the carbon before burning, thus securing three-fold more light. The principle is applicable to all lighting uses to which carbon is applied, and the patentees claim that the lamp is not only non-explosive and safe, but cheap and beautiful. The lamp is now used in many of our lighthouses, having been adopted by the United States Government.

Messrs. Jones, Crawford & Vogel, active and experienced young business men, have received the agency for this great invention, and offer State and county rights for sale. Rare inducements to accumulate a fortune are offered in their sale, and we invite attention to the advertisement in another column. For the present the lamp is upon exhibition at Fulton's Drug store, corner of Fifth and Smithfield streets, where Mr. John Vogel will be found to explain its many superiorities and dispose of the lamps or district rights.

### An Estray.

Yesterday morning a young Welch boy, who gave his name as Sammy Davis, and seemed about eight years of age, appeared at the Mayor's office for direction or assistance, having come to the city in search of his father, Daniel Davis, whom he supposes to be employed in some of the iron mills hereabouts. He could give little idea as to where he came from, but said it was a Welch settlement somewhere, called America. His mother has been dead for several years, and it has been two years since he saw or heard from his father. When the elder Davis left "America" he left his child in the charge of David Jones, so Sammy states, but Jones has got tired of keeping him, as near as the boy can tell, and has turned him out to shift for himself. The young estray reached the city yesterday on the train from New Castle, and was directed to the Mayor's office, as we have stated. He was taken to Edwards' Union Hotel, on Second street, in the Eighth ward, the proprietor having volunteered to keep him temporarily until inquiries after his father could be made. We understand that a gentleman who saw the boy and was pleased with his frank, intelligent appearance, is desirous to adopt him at once if the father does not speedily "turn up."

### Directors Elected.

On Monday the annual meeting of the stockholders of the Bank of Pittsburgh was held. The following gentlemen were re-elected to serve as Directors of the institution during the ensuing year: John Harper, John Graham, Robert Beer, William Morrison, John K. Wilson, William B. Copeland, William McKnight, James Dalzell, William Holmes, M. Whitmore, N. Voegtley, Jr. John Harper, Esq., is President of the Bank of Pittsburgh, and is one of the oldest and most experienced financiers in the State.

Also the annual meeting of the stockholders of the Pittsburgh and Birmingham Passenger Railway Company was held at the Monongahela House Monday afternoon, at two o'clock, when the following gentlemen were elected to serve as Directors for the Company for the ensuing year: William M. Hersh, William K. Nimick, B. F. Jones, John M'D. Crossan and M. W. Beltzhoover.

At a meeting of the stockholders of the Keystone Savings Bank, held Monday afternoon at the store of James Robb, Esq., No. 89 Market street, the following Directors were elected to serve for the ensuing year: James Robb, H. J. Lynch, Wm. Pickersgill, Jr., Jas. Gillespie, Samuel Barckley, J. W. Carnahan, John Murdock, Jr.

### A Disorderly Hotel Keeper.

Yesterday afternoon Mayor McCarthy had before him Wm. Morgan, proprietor of the Morgan Hotel on Penn street, charged with disorderly conduct on oath of officer Cochran, of the special police. The prosecutor alleged that on Monday evening as he and officer Smith were passing Morgan's house they heard a row going on inside. Morgan stood at the door of the house and said, apparently to the officers, that he wished they would stop the fight that was going on. Officer Cochran made some inquiries, when Morgan turned upon him with violently abusive language, and went into his house, turning when he had got inside the door, and daring the officers to come in and attempt any arrests. The police men waited about the house in order to quell any serious disturbance, and repeatedly Morgan came out to them, talking and acting in a most disorderly manner. At length he was arrested, and at the hearing yesterday was fined $10 and costs.

### Griffith Gaunt.

This interesting story of Charles Reade's still continues the popular topic in reading circles. Over thirty thousand copies have already been sold in this country. It has also been successfully dramatized, and is drawing crowds to the New York theatre. The drama is thus spoken of by the *Commercial Advertiser* of the 17th:

"A drama full of the most thrilling incidents. From the rising to the falling of the curtain there is a succession of these powerful in the extreme. The serious, the emotional, the pensive, and the broadly comic succeed each other in bewildering succession. The theatre was crowded, and the applause genuine and repeated. The play is a success, and will probably have a long run."

Manager Hess, of the Opera House, is preparing this play and will soon produce it.

**Fractional Currency.**—Last week the printing division of the Treasury Department printed fractional currency of the different denominations amounting to $455,410. The shipment during the same period were as follows: To assistant treasurer at New York, $1000,000; to United States depository at Cincinnati, $50,000; United States depositary at Pittsburgh, $60,000; and to National banks, $287,779,25. The redemption division redeemed, defaced and mutilated notes amounting to $422,964,31.

### Good Haul of Professional Thieves.

For a considerable time, our city has been infested with a gang of professional thieves, some of them imported and some of them native and to the manner born. These gentry have carried on their sneaking operations with no small success, from time to time, surprising and knocking down gentlemen whom they might encounter alone at night, robbing helpless women and children, and committing sneaking depredations about the depots and warehouses. Fair specimens of their operations are offorded in the robbery of Mrs. Conner, last week, near the the elevator, and the knocking down of Mr. Blair near the same place.

So adroit were the operators, however, that no definite clue to the perpetrator of any particular outrage could be obtained, and those who were suspected of being professionals kept themselves so scarce that the officers could not get sight of them. It was ascertained, however, that the objects of solicitude were making their headquarters at the Irwin House, on Liberty street. A descent on them was determined upon, and at about midnight on Monday night, most of the officers of day police made a raid on the Irwin House and succeeded in arresting five of the rascals.

A choice lot of birds they were who were captured in that nest! They were Bob Gillespie, a well known character who has served one term already in the Penitentiary; Tom Dougherty, who has the reputation also of having graced a stone cell; John Bird, who has served the State compulsorily during two terms; "Snibs" Arnold, who has also been two terms in State quarters; and Jack Young, an operator who eclipses all his compeers in their peculiar glory, having served out three terms in the Penitentiary, and possessing brilliant prospects for another. Two revolvers were found in the possession of the disturbed party, and were duly appropriated. A fine-tooth comb was the only other weapon of destruction found in their possession.

The prisoners were conveyed to the lock-up, where they still remain, awaiting a hearing, which will probably be accorded to them to-day. There is no doubt that they will all get the full benefit of the "Ninety Day Law," and it is possible that they may receive something a degree nearer the justice their case demands, and renew their acquaintance with the familiar scenes of the W. P.

### Trouble at the Irwin House.

A man giving his name as Foster M. De Armitt, a blacksmith in the employ of the Pennsylvania Railroad Company, in the Ninth ward, put in a hasty and sanguinary appearance at the Mayor's office, yesterday afternoon. His face was streaming with blood which flowed from a severe gash on the forehead, not less than from a badly bruised proboscis. His hair was standing in about the position that might be expected if Hamlet's father's geost's tale had been unfolded to him, and his coat had evidently been recently in the hands of one who was by no means an anti-renter, it being torn and ripped in the most complicated manner. As soon as he had washed the blood sufficiently from his mouth to permit him to speak, he proceeded to make information for assault and battery, against John Irwin, proprietor of the Irwin House, No. 350 Liberty street, alleging that he (De Armitt,) went into the hotel and took a position quietly by the stove, where he stood, saying no word to any one present, but only warming himself. Irwin, who stood behind the bar, peremptorily, and without any preliminary words, ordered deponent out of the house. His visitor demurred, when Irwin came from behind the bar and summarily knocked De Armitt down, and subsequently kicked him in the face, the heel of his boot producing the gash aforesaid. A warrant was issued and Irwin arrested. At the hearing it was proved that although the accused did knock the deponent down, he had provocation for so doing. It appears that De Armitt entered the bar room, and instead of comporting himself like a gentle lamb, had kicked up a muss, and on a remonstrance from the proprietor, had not only refused to leave, but had aggravated his previous conduct whereupon he had been knocked down as aforesaid. In this view of the case, the prisoner was discharged.

### North vs South.

Patrick Driscoll and Michael Britt, both claim the sweet "Gem of the Sea," as the land of their nativity, but unfortunately the youth of one was spent amid the cold breezes that play around the rugged mountain airs of Ulster, while the other grew into manhood beneath the warm skies of Munster. On Monday evening, at the solicitation of Driscoll, Michael paid a visit to the home of the former, in a court off Wylie street, where the twain managed to pass a pleasant hour in sweet converse, interspersed with the singing of Irish ballads and the relating of anecdotes. Things moved on smoothly as friendship could wish, until Britt recounted a joke that reflected upon the intelligence of the north country, whereupon Patrick became inspired with sectional enthusiasm, and announced in terms more pertinent than polite, that if his guest did not immediately quit the protection of his roof, he would be forced to use violent measures in ejecting him. This in turn exasperated Britt, who unable to curb the fierce fire of his southern blood, struck his angered host in the right eye with such violence as to force him to occupy a horizontal position on his parent earth, in which attitude he further maltreated him by kicking him in the chest and doing him other bodily harm. When certain his victory was complete Britt repaired to his home in Brownstown, while the vanquished hastened to the office of Alderman Lynch and made oath against Michael for assault and battery. A warrant was issued and placed in the hands of officer Conners who succeeded in arresting the accused. He was released from custody on furnishing bail in the sum of $300 for a hearing to-day.

### Decapitation.

No part of the human structure is so essential to existence as the head, and as a natural sequence it is *highly* prized by any person that desires a little longer to remain upon God's footstool. One of this class is Dennis O'Neil, who, until recently, was in the employ of the Western Pennsylvania Railroad Company, at Sharpsburg. A few days since, Mr. Wheeler, the Superintendent of this section of the road lying in that vicinity, had a difficulty with Dennis, who he threatened to decapitate if he ever caught sight of the offending O'Neil again. Fearing such a catastrophe the latter appeared before Alderman Lynch and made oath against Wheeler for surety of the peace. The accused, on being arrested, waived a hearing and entered bail for trial.

### Terrible Fall—Man Injured.

Between eleven and twelve o'clock last night, an old man named Stephen White was brought to the Mayor's office in a vehicle, he being unable to walk on account of injuries received by falling over an embankment in the Ninth ward, about one hour previous. White states that he was walking along the track of the Pennsylvania Railroad, near the outer depot, when a train approaching, impaired his vision with the light, so that in stepping aside he missed his footing, and toppled over an embankment as stated, some twenty feet high. Besides breaking one leg a little below the knee, he sustained other injuries of an internal nature. When we saw him late last night he was suffering acutely.

**The Gazette**, as the oldest journal, deems it fitting to speak of Shephard's Steam Bakery and Confectionary as the oldest establishment of the kind in the city. For more than forty years Shephard, of No. 317 Liberty street, has furnished the best and purest of bread in all its forms of loaf and roll, cake and cracker. A hundred thousand mouths have been added to the bread-eating population of Pittsburgh since he began to feed them, and still the elder Shephard, aided by his son, stands ready to regale them all with the choicest products of his enlarged establishment. Among these are included a superior quality of Graham, or anti-dyspeptic bread, fresh baked every morning, all the common kinds of bread and crackers, and a choice variety of candies and confectionary of his own manufactures. We can safely, as we do cordially, commend this establishment, not only as the oldest, but as among the very best of the kind in the city, one that keeps fully up to the times in all manner of improvements.

**The Value of Good Lungs.**—We advise our readers who are desireous of preserving the usefulness of the lungs and bronchical apparatus not to deter taking medicine in time for their cure. Most of the consumptive cases which end fatally, are the result of a small beginning of a cough or cold, which could be easily removed by a bottle of *Dr. Keyser's Pectoral Cough Syrup.* It has had abundant evidence of its vast superiority over most other remedies, and those who resort to it in time will save a great deal of suffering from those disagreeable diseases which are so prevalent during the winter and spring months. You can get it at Dr. Keyser's Drug Store, No. 140 Wood street.

**Sad Accident.**—As the Express train on the Baltimore and Ohio Railroad, was passing Littleton, westward bound, last Friday, a little child, whose parents live at that place, happened to be playing on the track. The engineer saw it, but too late to save its life. Although every effort was made to stop the train in time it could not be done, and the child was crushed to death.

**The Sand Patch Tunnel.**—The Sand Patch tunnel on the Pittsburgh and Connellsville Railway is at last cut through. Its total length is 4,760 feet, being 1,000 feet more than the long tunnel on the Pennsylvania Central Railway through the Alleghenies between Altoona and Cresson. It is intended for a double track, and is 22 feet wide by 19 feet in height.

**Appointment of Gauger.**—Colonel Joseph Brown, as his numerous friends will be pleased to learn, has received the appointment of County Gauger for this county, at the hands of the Governor of Pennsylvania. He will no doubt do credit to himself and the community at large.

### A Railroad Catastrophe.

For some time past the officers of the Western Division of the Pennsylvania Railroad have had suspicions relating to some of the employees running on that portion of the road. When they contemplated the manner in which the conductors of some of the passenger trains were gotten up, the probable returns that should have been made and the actual returns that *were* made, the perplexing inquiry, "How do they do it!" made itself unpleasantly prominent. No definite clue could be obtained, however, to the evil practices that were known to be in progress. The aid of Mr. Pinkerton, of the Chicago Police Agency, was sought, and a number of his efficient detectives placed on the several passenger trains. Some time elapsed before their investigations bore fruit, but on Saturday night the ripened results were produced. Those results were sufficiently startling to eight conductors of passenger trains on that road. These eight officials were, on Saturday evening, peremptorily discharged from the service of the company. They were not arrested, their employers contenting themselves with dismissing them. It is whispered that a similar job of decapitation will take place soon on the Eastern Division of the Road. We may mention here that no company in the country pays better salaries than the Pennsylvania Railroad Company, and if it is possible for any employees to be honest, it is easy for theirs.

### Patents Granted.

The following are among the Patents issued for the week ending, November 13th, 1866:

Nathaniel Adams, of Altoona, Penn'a., for improvement in machines for drawing spikes.

A. F. Grove, of James Creek, Pa., for improvement in cultivators.

B. Heiderich, of Brady's Bend, Pa., for improvement in car trucks.

Peter C. Heintz, of Funkville, Pa., for improvement in injectors.

Thomas McCleary, of Blairsville, Pa., for improvement in fire places.

Theodore Schreiber, of Wheeling, West Virginia, for improvement in combs.

Erastus Slater, of Girard, Pa., for improvement in fruit extension ladder.

Jesse S. Wheat, of South Wheeling, West Virginia, for improved apparatus for fleshing and stoning hides and skins.

Theodore A. Williamson and Charles A. Richardson, of Allegheny city, Pa., for improved rolling pin, &c.

Joseph C. Tilton, of Pittsburgh, Pa., for improvement in lamp burners.

John K. Andrews, of Antrim, Ohio, assignor to Joseph C. Tilton, of Pittsburgh, Pa., for improvement in lamp burners.

### Hucksters in Trouble.

Patrick Kernan and Arthur Donnelly were leagued together in a partnership that had for its laudable object the capture and conversion of the fickle goddess fortune to their own use and convenience. They wooed her not with crisps of silks and soft velvets, but with cabbage, potatoes, and that odorous vegetable onions—in short they were in the huckster business, out of which they realized a sufficient quantity of "stamps" to purchase a horse, the bargaining for which was entrusted to the care of Donnelly, who, it is alleged by Patrick, bought the equine animal, but having an opportunity to speculate, sold him again at an advance from what he had paid for it, and appropriated the proceeds of the sale to his own individual use, without any regard to the claim of his partner for half of the proceeds. After exhausting entreaty Kernan appeared before Alderman Lynch yesterday, and made oath against Donnelly for trover and conversion. A warrant was issued.

### A Pugilistic Female.

Emeline Peterson came to the office of Alderman Taylor yesterday and made oath against an individual named Louisa Roe, charging her with surety of the peace. The prosecutrix alleges that Louisa came to her residence, in the Fifth ward, and invited the fragile Emeline to come out of her domicil and participate in a sort of a prize fight or tournament, for the purpose of vindicating Louisa's honor, which seems to have been somewhat tarnished by the slanderous utterances of Emeline. The gage of battle was rejected, and Louisa then threatened to burst the head of her less pugilistic antagonist, whereupon the threatened one made oath as stated. Louisa was arrested and held to bail for trial.

### A Base Forgery.

MESSRS. EDITORS:—The "Great Republic" letter, republished in yesterday's *Chronicle*, from the Memphis *Avalanche* and Cincinnati *Commercial*, and purporting to have been written by F. A. G. Gearing, is a base forgery, full of willful and malicious falsehoods. Until the guilty party be detected and brought to judgment, I ask a suspension of public opinion. CHARLES GEARING.

**Immense Rush for Laughing Gas.**—Fifty-seven ladies visited the office of Dr. G. W. Spencer, No. 254 Penn street, yesterday (Tuesday) and had from one to twenty teeth each extracted without the slightest pain as they all testify by adding their names to his scroll book. Dr. Spencer has had more experience in the use of laughing gas than any dentist in this city, and take our word for it all who patronize him will be perfectly satisfied. Besides the Doctor's regular assistants he has two experienced lady attendants that are always in the operating room to wait on ladies and children.

**Singular Death of a Child.**—A woman living in the vicinity of Manchester, Ohio, recently went into a cornfield to gather some vegetables, and while doing so, sat her infant child, about six months old, carelessly on the ground. When she again took it up the child appeared very sick. A physician was sent for, and thinking it had taken poison, an emetic was administered, when the child threw up a large, live, green worm, known as a tobacco, or corn worm. The child lingered in agony for sometime and died.

**Larceny of Table Ware.**—Chris. Schwartz appeared before Justice Barker, of South Pittsburgh, yesterday, and made oath charging Maria Muller with the larceny of a quantity of table cutlery, such as knives, forks, castors and sugar-tongs from his residence in Carson street, in the Borough of Birmingham. At the time the alleged theft was perpetrated Maria was employed as a domestic in the family of her accuser. She was arrested by officer Coyles and brought before the Magistrate, who held her in $300 bail for a hearing on Thursday.

**On the Rampage.**—If what John Tubey says be true, Patrick O'Conner has been deporting himself of late in anything but a proper and gentlemanly manner, his conduct being very reprehensible indeed. Yesterday he reached the climax of his evil doings by striking Tubey on the nose with his clenched fist, after which he drew a large knife and threatened to cut the internals out of the stomach of the meek and humble John, for threatening which, he was brought before Alderman Taylor and held in $500 for a hearing to-day.

**Troublesome Coughs and Colds.**—The health of the community is always a subject of serious consideration to those who are supposed to direct public opinion, and there are no more prevalent source of untimely deaths than the coughs and colds which make their appearance during the winter and spring months. We would advise all such, who are afflicted with any lung difficulty, to apply at once to Dr. Keyser's Syrup. Prepared and sold at 140 Wood street.

**Charged with Passing Counterfeit Money.**—Isaac Eider made an information before Alderman Taylor yesterday, charging Mr. Jackson, a colored man, with passing a counterfeit five dollar "greenback" upon him on Saturday last, the deponent averring his belief in the presumption that Jackson knew the character of the note when offered by him. A warrant has been placed in the hands of officer James Bell for the arrest of Jackson.

**Don't Neglect a Cough.**—Of all the diseases to which we are exposed, there is none more deserving of our immediate attention than what is usually termed a cough or cold, for the reason that, if not arrested, they are apt to run into some fixed diseases of the air passages of pulmonary tissues, ending in consumption or incurable bronchitis. The way to prevent this is to take Dr. Keyser's Pectoral Cough Syrup. Sold at 140 Wood street.

**Counterfeit Nickels.**—Counterfeit five cent pieces, in imitation of the "nickels" recently issued by the Government, are in circulation, and are reported to be more plentiful than the genuine half dimes. The bogus coin is said to be lighter in weight and darker in appearance than the genuine, but the genuine is so imperfectly known that it is probable large amounts of this stuff may be shoved upon the too gullible public.

**"Burn Her Out."**—Annie Morrison came to the office of Justice Lippert, yesterday, and made oath against L. S. Sourbeck for surety of the peace. The prosecutrix alleges that the accused threatened to "burn her out," and hence she desired his arrest. A warrant was issued for his apprehension.

**A Police Officer Used Up.**—A police officer, a night or two ago, entered a den of rowdies at Allentown, and attempted to arrest some of them for disturbing the peace, when they turned upon him, disarmed him, got him down, bit his thumb and his ear, and almost used him up.

**Selling Liquor Without License.**—Michael Brauman came to the office of Alderman Humbert, yesterday, and instituted legal proceedings against James Connery for selling liquor without license. Both parties reside in the First ward. A warrant was issued.

## TO YEARLY ADVERTISERS.

Owing to the large amount of advertising patronage with which we are favored, and for which we are duly thankful, and the increase of our circulation, altogether beyond our present means to supply as promptly as we ought, we find it generally inconvenient, and sometimes quite impossible, to insert changes for yearly advertisers, unless left at our counting-room before seven o'clock in the evening.

## THE CASE STATED.

The *Georgia Citizen* is published at Macon. Its senior editor has been journeying somewhat extensively at the north, endeavoring to ascertain for himself the condition of public opinion here on the important matter of reconstruction. The results of his investigations he is giving to his readers. Here is one point he makes:

"With reference to the action of the South on the Constitutional Amendment to be submitted to their consideration, I have this to say, as my *opinion—not* my *wish*—that *we will have to swallow the bitter draught to the dregs*, or content ourselves with taxation without representation for perhaps years to come! With this view of the subject—without intending to advocate the adoption of the Amendment—it were perhaps best to let things take their course. Could the South have *any guarantee* that no more would be required of her than that now presented, it would perhaps be best to yield to the imperative circumstances of the condition, as has been done before, and submit, with the best grace we can, to the exactions and humiliations imposed on a down-trodden people."

No room exists for questioning the accuracy of the main conclusion arrived at. The northern people are resolved that the men who concocted and led the rebellion shall not henceforward share in the management of the government, and that political power shall be accurately apportioned according to the number of men in the respective States allowed to vote. These conditions are doubtless felt to be severe by two classes of people—the men whose authority and ambition will thus be smitten down, and those whose aristocratic prejudices, pampered through several generations, are affronted. It is easy to see that for them to accept these conditions is like "swallowing a bitter draught to the dregs." Such feeling on their part does not show that the "draught would produce unwholesome consequences, or that the intention in administering it is malevolent. It only demonstrates with what reluctance men who boldly challenge Destiny, sometimes accepts its awards.

When the Southern people and States tendered the gage of battle to those of the north, they knew full well what alternations were involved. It was possible that both parties becoming equally exhausted conditions of re union might be made, or that the north, distractedly desirous, might elect to let the South go rather than continue the conflict. It was farther possible the South, under certain contingencies, might conquer the South. No other solution appeared probable. What was most likely to happen, actually did occur. The South was conquered. After fighting, with prodigious bravery, for four years, its armies made unconditional surrenders. The revolted States passed under the law of the strongest. Naturally they expected conditions would be imposed on them. The terror that pursued their leaders and people as soon as their means of defence were exhausted showed that they believed they should be dealt with rigorously. This was their interpretation of their own deservings. Conscious of having wantonly conspired against the life of the nation; of having pursued that conspiracy by methods repugnant to the rules of civilized warfare; and of having exposed themselves to condign punishment through the regular operations of the laws, they were filled with consternation.

In this view of the case how preposterous it is for this editor, or any other man among them to complain that they are "a down-trodden people." The evils that they feared, and knew they deserved, have not come upon them. No people in the whole tide of time, involved by their own acts in the same dilemma they are, were ever treated so leniently. The magnanimity of the North stands without a parallel. Not a victim has been offered to appease its wrath. The sword of Justice sleeps in its scabbard, and Mercy is allowed silently to eat away its edge. The most that the North exacts is that it shall not be constrained to meet at the Council Boards of the Government the men whose hands are dripping with the blood of its scores, or who famished them by tens of thousands, upon system, in prison-pens.

What if the South had conquered the North? Does any sane man believe there would have been no trampling down? No shocking display of vengeance? No savage examples of the delirium in triumph? No offensive flaunting of superiority? No permanent conditions designed to secure the conquest and maintain the ascendancy? Let Southern men take such questionings down into their heart of hearts, and honestly proclaim what consciousnesses the scrutiny evokes.

## LETTER FROM WASHINGTON.

Correspondence of the Pittsburgh Gazette.

WASHINGTON, November 17, 1866.

*Messrs. Editors*:—As the time for the session of Congress draws near various speculations as to what it will do and on what grounds the President will meet it, grow rife. Political wise-acres meet at Willard's and other political 'changes and give each other the *on dits*. In fact I have never known, in this metropolis, a more general interest in an approaching session, because, among other reasons, most of the "*ins*" are fighting to remain "*ins*," and most of the "*outs*" *not* to remain "*outs*."

Then, also, the grand general invitation of the "Boys in Blue" to all the outside world to come here and see how a Radical Congress can assemble, and what the process of meeting really amounts to, to add something of zest and eclat to the occasion. Washington will look again, for a short time, as it used when the grand army of the republic was on its feet, and wherever it went glory followed in its train.

Among the *on dits* is—that the President "begins to see it;" that he has heard the magnificent echoes which rolled from Illinois to Cape Cod. Logan is here from the former State with sixty thousand majority at his back. A seat is waiting for grand old Thaddeus Stevens, in whom combine the fire of youth and the wisdom of age. Whether he take that—his present—seat, or shall hear the people's voice "go up higher" is a matter of small account to him, I think. His duty is his first consideration. Governor Morton, that patriotic, eloquent champion of right—he, too, will have a seat in the next Senate from Indiana. And the brave and noble Fowler, of Tennessee—a God-send from that State—will be here to speak for its best thought and its highest aspirations. But to return from our "excursioning" to the *on dits*. The President, through these coming champions of right—not one of whom, the people, though often requested (in legal phrase), have yet hung—sees that it is he must come to terms. Chief Justice Chase has been taken into the counsel of the President, and a meeting was held yesterday at which the Cabinet was also present. Surmises as to what was the subject of consultation are numerous. Of course no reliance can be placed in them. Some say that another Amendment to the Constitution—one which shall take the place of those presented by the people—will be proferred by the President; that this shall advise the Southern people to adopt qualified suffrage, such as prevails in Massachusetts for example. The strong point of objection to the now proposed amendments would seem to be the disfranchisement of rebels. The idea that those who never lived except on office shall be kept entirely out of them, is the hard thing to bear.

"Take any shape but that"—

I believe that the people ought not and *will* not yield a hair on this point. It ought to be enough that the halls of Congress are supplied with members of Congress from New York city, without an invitation to the constituents of the Pograms and the Legrees to send up their five year growth of brutality and barbarism to infest the House with their festering ruffianism. One Morrissey at a time, gentlemen, if you please. If you must send personified Democracy in white choker and black coat, yclept Fernando Wood, then we pray you hold Mayor Munroe in command of his thugs at New Orleans.

But this other *on dit* must not be forgotten, viz: that the guillotine has, at least for the nonce, been locked up. They *do* say that removals from office "for conscience sake" have ceased. This is apparent to any one: that the seedy and crapulous crowd of long-haired "Sons of—the South" has thinned out at Willard's. No more of mornings on that much worn pavement do you see the beautifully tinted eye or nose of some Southern patriot, fresh from some foughten field of the Confederacy, fresher from last night's whisky and this morning's soda water. Nay, weep not the departed! They staid in vain pursuit—many of them—of the office due to their patriotic efforts to tear down the government, until Benjamin, with the three gold balls around the corner, had bought at *barely* remunerative prices, the last spare shirt the Confederacy had left him. The bar at Willard's or the Excelsior has mixed "on trust" the last cocktail for the patriot's thirsty throat. He hath sought his Sunny South, because "republics are ungrateful."

The powers around the Executive have not perhaps been entirely true to "my policy." It is notorious that General Grant is avowedly in favor of the Constitutional Amendments and that he advises the South to accept them as the very best thing they can ever possibly get.

The remaining pillar of the glorious administration of Mr. Lincoln is the patriotic Secretary of War. Through all the labors and vicissitudes of these dreadful years now past, like Hercules, he has borne the world upon his back. What vigilance! What toil! What fidelity! Can a grateful people ever forget his great work for them? Is there any office of trust or honor which he would not adorn? Mr. Stanton is a historic character. It is for the future to fully understand him. What he has done is too vast to be appreciated on close inspection. The grander outline of the mountain is seen in all its beauty as it recedes toward the horizon. What we do know now is that he stands as a rallying point for all good and true men in an administration otherwise of no party but the "one man party." Perhaps we might say the "three man party"—Johnson, Doolittle, Cowan; *par nobile fratrum*.

RADICAL.

BLUE LAWS IN OHIO.—The Ashtabula (Ohio) *Sentinel* publishes as genuine documents the venerable records which we give below:

*State of Ohio versus Calvin Knowlton.*

May 18, 1812.—Upon inquiry, it appears that Calvin Knowlton is guilty of riding from the township of Morgan to the township of Lebanon, on the Sabbath day evening, previous to sunset, to see his sweetheart. Therefore it is my opinion that the said Knowlton pay to me the sum of one dollar for breaking the laws of morality.

T. R. HAWLEY, J. P.

Truth—JONA. WARNER, Deputy Recorder.

July 12, 1812.—By virtue of a warrant, Jonathan Warner appeared before me, and after witnesses being heard, it is my opinion that the said Warner pay the sum of seventy-five cents and costs, for raking eight cocks of hay on the Sabbath of the 11th day of July, 1812, notwithstanding the said Warner's hay might have been injured by a heavy thunder shower.

EZRA DIBBLE, J. P.

## FEMALE DRESS.

BY DIO LEWIS, M. D.

This subject is vitally important. Beside it, diet, exercise and baths sink into insignificance. My pale face country women are dying for lack of room, freedom; they are being testifled. Dress reformers proclaim short skirts as the remedy. This is well. The short skirt is an improvement—a movement upward, but of no consequence compared with the readjustment of the dress about the middle of the body. That part contains the vital organs. Is a man strong? it is because the middle of the body is strong. Is a woman vigorous? it is because the middle of the body is developed and active.

The changes needed in woman's dress are the following, and I believe their importance as in the order named:

1. The dress about the waist is to be very loose, without whalebones or other stiffening, and the skirts carried with suspenders over the shoulders.
2. The arms and legs are to be so warmly dressed as to maintain healthy circulation.
3. The skirts to fall to the knees.

I have said that the importance of these several changes is in the order named. The lungs, heart, liver and stomach, which together make up the fountain of life, must have room, or the vital forces must halt. With the corset and tight-lacing, these organs are reduced one-third in size and two thirds in motion.

*Health and equilibrium of circulation* are interchangeable terms. Whoever, whatever living thing, either animal or vegetable, has defective circulation, has defective health. Flannels, cotton padding, thick shawls, cloaks and furs piled upon the chest, while the legs are covered with a single thickness of cotton cloth surrounded by a balloon in the shape of a hoop, steams the chest and freezes the legs. The legs and arms, separated so far from the center of the body, surrounded by the cold air, need to say the least, as much clothing as the body, and ought to have on one, or, in cold weather in this climate, two thicknesses of knit woolen. Women complain to me of headache, tell me their blood is all in their head and chest, while their feet are as cold as ice. With the fashionable dress, how can it be otherwise? Let them cover the limbs with one or two thicknesses of warm flannel, and the feet a warm dress, and the head and chest will be immediately relieved.

The short skirt, although in importance to health the least vital of these three changes, is nevertheless very important. The skirt should fall a little below the knee. The pants should be the large Turkish pants, which, made long enough to fall to the ankle, and fastened at the bottom by being drawn close about the ankle with a slight elastic cord, should then be drawn up to the place usually occupied by the garter, and pulled down to the middle, or a little below the middle of the calf of the leg. When going out into the cold air the exposed part of the leg should be covered with a patent leather anklet, and during the cold season of the year that part of the leg should be covered with two thicknesses of woolen. While all this peculiar arrangements is, in point of convenience and protection, less satisfactory than the straight pants, such as gentleman wear, I nevertheless advise it, because it is very easy to introduce the short dress with these pants, and very difficult to introduce what is known as the Bloomer costume. For example: In my school at Lexington, Massachusetts, I had more than a hundred fashionable young ladies last winter, all of whom wore constantly during the school year the short dress, the gymnastic costume, while all the fashionable ladies of the village outside of the institution adopted the same dress. Indeed, it is almost rare to see in Lexington a lady with a long dress. An attempt to introduce the Bloomer costume, I am sure, would have proved a failure—not in our own house, perhaps, but in its influence outside. All through our part of the country, when we go out to ride, we see ladies in the short dress. Indeed, some of the clergymen, who observed that our young ladies changed for the long dress on going to Church, came to me to say that they hoped I would allow them to come in their short dress, for they liked very much to see them. A single lady appearing in the streets of Boston in the regular Bloomer costume attracts a crowd of boys, while twenty of our young ladies can go into Boston without remark or notice. The fact is, we men and boys are very jealous of our breeches; but the gymnastic costume does not involve that garment, and so we lords of creation give our consent to its adoption by our sisters.

**DR. CHAUSSIER'S EMPRESS LA COMPOSITION IMPERATRICE POUR LE CHEVEUX.**—It has long been known that the Hair, by mental exertion, by excitement, disease and imperfect circulation, loses its vitality, turns gray and falls off. That eminent French Chemist, DR. CHAUSSIER, has provided a complete antidote, and at the same time a beautiful dressing for the hair, durable and finely perfumed. Remember this is the finest article for the toilet which has ever been presented to the public. IT IS NOT A DYE. It will not soil the finest linen. It will not gum the hair. It is free from the disagreeable smell of sulphur. It relieves the scalp of dandruff and unpleasant irritation. Prevents the hair from falling off, even after fevers. Causes the new hair to grow. It will restore gray hair to its natural color, or the money will be refunded in every instance. As this preparation is comparatively new in this country, the proprietors present the testimonials of well-known persons as to its excellence. Directions in French and English.

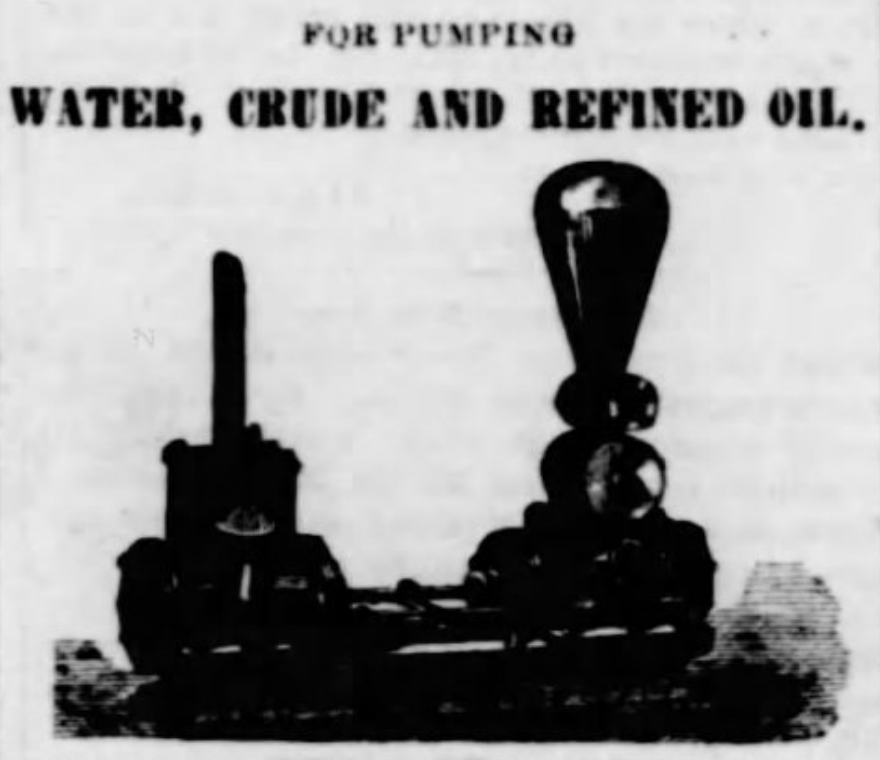
**STEAM PUMP**

**AND**

**FIRE ENGINE,**

FOR PUMPING

**WATER, CRUDE AND REFINED OIL.**



This Pump combines all the advantages of other styles of Pumps now in the market, with none of their defects. The Patent Steam-Valve applied to this Pump enables it to start at any point of stroke by simply opening the Valve in the Steam-Pipe, and the Pump is sure to start at once without the use of a starting bar, or the annoyance of pulling a fly wheel around to get it off the centre. For Mining purposes this Pump is peculiarly adapted, as the Valves can be removed by unscrewing one nut, and the Valve-Chest cleaned in a few minutes. As the Pump is simple in its whole construction, it does not require the neighborhood of a machine shop to keep it in working order. The Valve-Chest and Valves are made of brass or composition, and can be easily repaired or replaced when worn out. Any carpenter can make, in a few minutes, of some hard wood, a set of Valves for this Pump, if the original ones should give out. As a Boiler Feeder, it has no superior, as it can be made to run at any speed, either slow or fast, to suit the work it has to perform. The undersigned respectfully solicit the attention of their numerous customers and the public in general to the merits of this Pump, and desire those wishing such an article to call on

Our series embraces the most popular works on all subjects of importance, and is selling rapidly both North and South.

Old agents, and all others, who want the best paying agencies, will please send for circulars and see our terms, and compare them and the character of our works with those of other publishers. Address

### Protection for American Farmers.

NOBLESTOWN, Alleg'y. Co. Pa., Nov. 20 1866.

*Messrs. Editors*:—The National Wool Growers' Association, held at Cleveland, on the 14th and 15th, was a glorious success. Every member was animated with the most cordial good will toward each other, and nothing transpired to mar the subject matter of interest for which the meeting assembled, more particularly viz: A National Wool Growers' meeting, to consult together, and devise means for their protection. After an interchange of sentiment, or comparing notes, with a unanimity never before excelled in this country on a subject of vast importance, the meeting, without a dissenting voice, agreed to ask or pray the United States Senate, to give its consent to the passage of the wool and woolen tariff bill, just as it passed the lower house of Congress, it being a part of the unfinished business of the last session of the Senate, and to come up in December next.

A very pleasing feature and plainly evident in the proceedings of the meeting, was lack of disposition on the part of any member to be unjust to any of the industrial interests of our whole country, whether manufacturing, planting, mining, or otherwise, each member feeling fully satisfied that the bill postponed by the Senate on wool and woolens, is equitable and just, not so high as to be injurious to any considerable part of our fellow-citizens, and at the same time the least amount of protection that will adequately protect the only agricultural product that the American farmer now asks to be protected, and while the members feel in the past that the great and only universal product of the American agriculturalist (wool) has been neglected by our national law makers, there was no unkind expression or feeling manifested towards any other industrial interests that have been fostered by general Government, many members feeling that it was the neglect or fault of the American wool grower not having asked before that justice be done by the Government to the tiller of the soil, whence comes the greatest support of all nations.

It was specifically shown that the most certain way of fully promoting the wool growers and wool manufacturers interest was by and in the greatest prosperity of all the industrial interests of the whole country.

A family expending more than they can earn are certainly in the direct road to ruin; so with us as a nation in our vast importations. Why not then become more Americanized. Our interest is undoubtedly to become in fact as well as in name, one complete fraternal American family, inviting and welcoming all who will come over and partake, and enjoy and contibute in labor, planting, agriculture, manufacturing or otherwise to the glory and prosperity of the great American family, labor being now remunerative through our vast country. Except geographically, there is now no South, North, West or East, all together compose one American family.

The vast importations of 1866 and exportation of gold for their payment, the magnitude of our national indebtedness and the certainty of our laborers, whether day, skilled, mechanical or otherwise, all commanding better wages than other countries pay, and the certainty that the great majority of the American people demand necessary protection to enable every industrial individual to enjoy the necessaries and comforts of American citizens in the dignity of manhood which is the inalienable right of our country people, either by birth or adoption are reasons for action. Do the agriculturalists and other industrial interests of the whole country have full assurance that State representatives will only vote for aspirants to the United States Senate who favor protection to the American wool grower and other industrial interests of our common country? If not, up and secure that pledge.

GLENN & BROTHER.

### The Methodist Protestant General Conference.

The General Conference of the Methodist Protestant Church, assembled yesterday morning at half-past eight o'clock. Church Union was the subject assigned for consideration and the report of the Committee on Union was received, the Conference having previously adjourned and resolved itself temporarily into a General Convention, with Dr. Scott as President. The report is as follows:

The Committee to whom was referred the subject of Church Union, ask leave to submit the following report to the General Conference, now in session in Allegheny city:

Having carefully examined the constitutional basis of church union agreed upon by the representatives of the Non-Episcopal Methodist Churches last May, in the Cincinnati Convention, and likewise the Discipline, so far as the Committee appointed by that body have perfected their work, and finding both the action of the Convention and the Committee to be such as this General Conference can safely adopt, and believing that the Union in contemplation will be greatly to the advantage of all parties concerned, and for the glory of our Divine Redeemer, we therefore recommend to this body to take favorable action on the Union question, and now, in good faith, to enter into the proposed Union.

We find, on a thorough examination of the matter, that out of the twenty-four Annual Conferences entitled to representation in this body, twenty have endorsed the Union of the non-Episcopal Methodist churches. Three of the remaining four have yet to act on the question at their ensuing sessions, in the month of March, and from one we have no report. Those Conferences to be held in March will no doubt favor the Union.

We have likewise found that seventeen out of the twenty-four Conferences have clothed their representatives to this body with full conventional power and authority, to so change the constitution of the Methodist Protestant Church as to enable our denomination, in an orderly way, through the action of this Conference, to place itself under the ecclesiastical economy agreed upon at the Cincinnati Convention. Therefore, be it

*Resolved*, 1. That the Constitution of the Methodist protestant Church, in all its obstructing parts, be, and the same is hereby so changed, repealed and set aside, by the action of this General Convention, having full conventional power to do this act, as to enable this church to adopt the Constitution and Discipline agreed upon at the Cincinnati Convention, in May, 1866.

2. That the Constitution and Discipline agreed upon at the aforesaid Convention be, and the same is hereby adopted, to take effect after the General Conference of the United Body in May, 1867. But the style and title of this denomination, from and after the adjournment of this Conference, shall be, "The Methodist Church," and so to be represented in the General Conference in Cleveland, in May next.

3. That throughout all the ranks of non-Episcopal Methodism, and among other religious communities, any station or circuit, or parts thereof amounting to one hundred members, and adopting the ecclesiastical economy agreed upon at the Cincinnati Convention, shall be regarded as a "Methodist Church," in fellowship with us, and may elect representatives to the General Conference, to be held in Cleveland. *Provided*, That this provision shall only apply to those who cannot act with other regularly organized bodies.

4. That throughout this whole union movement we have acted in good faith toward all parties concerned, and in the fear of God, and now in the final consummation, in humble faith and prayer we ask the Divine blessing on all we have done.

GEORGE BROWN,
JOHN SARGEANT,
G. M. SCOTT,
WM. HASTINGS,
R. ROSS,
Committee.

At the afternoon session the resolutions were taken up and considered *seriatum*.

### Stamp Duties.

The Commissioner of Internal Revenue has just issued a pamphlet containing a schedule of stamp duties which took effect on August 1, 1866, and also laws and regulations concerning the purchase and use of internal revenue stamps.

In all cases where an *adhesive* is used for denoting the stamp duty upon an instrument, the person using or affixing the same, must write or imprint thereupon *in ink* the initials of his name, and the date on which the same is attached or used. When stamps are printed on checks, &c., so that in filling up the instrument the face of the stamp is, and must necessarily be, written across, no other cancellation will be required.

All cancellation must be distinct and legible, and except in the case of proprietary stamps from private dies, no method of cancellation which differs from that above described will be recognized as legal and sufficient.

A penalty of fifty dollars is imposed upon every person who makes, or issues, or who causes to be made, signed, or issued, any paper of any kind or description whatever, or who accepts, negotiates, or pays, or causes to be accepted, negotiated, or paid, any bill of exchange, draft, or order, or promissory note, for the payment of money, without the same being duly stamped, or having thereon an adhesive stamp denoting the tax chargeable thereon, cancelled in the manner required by law, with intent to evade the provisions of the revenue act.

A penalty of two hundred dollars is imposed upon every person who pays, negotiates, or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money, drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been affixed thereto.

A penalty of $50 is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty required by the revenue act, without effectually canceling and obliterating the same in the manner required by law.

It is not lawful to record any instrument, document, or paper required by law to be stamped, or any copy thereof, unless a stamp or stamps of the proper amount have been affixed and cancelled in the manner required by law, and such instrument or copy and the record thereof are utterly null and void, and cannot be used or admitted as evidence in any court until the defect has been cured as provided in section 158.

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated in schedule B, except proprietary and playing card stamps, for which a special use has been provided. Postage stamps cannot be used in payment of the duty chargeable on instruments.

**Troublesome Coughs and Colds.**—The health of the community is always a subject of serious consideration to those who are supposed to direct public opinion, and there is no more prevalent source of untimely deaths than the coughs and colds which make their appear, ance during the winter and spring months. We would advise all such, who are afflicted with any lung difficulty, to apply at once to Dr. Keyser's Pectoral Syrup. Prepared and sold at 140 Wood street.

**Attend to Coughs and Colds.**—There is a significance in the above advice, which, if attended to in time, would save hundreds of persons from untimely graves. Do we not know that many persons neglect to attend to coughs and such like maladies under the hope that nature will cure? Nature sometimes does cure, but she will cure much more rapidly if assisted by some such remedy as Dr. Keyser's Pectoral Syrup. Sold at 140 Wood street.

## EARLY TELEGRAMS.

## BY FOREIGN MAILS.

### Cause of the People Advancing—De L'Huys to be Recalled to the Foreign Department—The Russo-German Alliance—Charges Against England and France.

NEW YORK, November 20.—The *Herald's* foreign correspondence shows that the cause of the people is still advancing, notwithstanding the daily attempts of the more powerful monarchs to aggregate territory and solidify imperialism by diplomacy after the war. Venetia cheering around the ballot boxes, through which her citizens completed the unification of Italy, gives hope and courage to the Hungarians, who we are told are ripe for revolution, steadies the arms in the hands of the Canadian insurgents, and animates them to a renewal of the strife which will re-open the dreaded Eastern question, and at the same moment enables the population of Rome and the millions of Ireland to bear their burdens, patiently biding their time. Napoleon sees and feels his difficulties in Rome, Mexico and the East.

We are assured that Drouyn de L'huys will will be recalled to the head of the Foreign Department of France, the Emperor acknowledging by the act that the Marquis de Moustier has neither schooled or disciplined himself in the art of State craft to that degree which is necessary for the Imperial service at this peculiar crisis.

Baron Buest's appointment in the Austrian Cabinet alarms Prussia, and consequently inclines both the King and Count Bismarck more and more in favor of perfecting a Russo-German alliance.

The Emperor of Austria employs himself in visiting the battle fields, the scenes of his late defeats. His tour appears to be a melancholy one, both in intent and the receptions accorded him.

The Russian newspaper organs accuse France and England with engaging in an active intrigue for the exclusion of the Czar from the final settlement of the Eastern question, and assert in plain terms that it cannot be adjusted without Russia; but if such an event were possible and occurred, the subject would be re-opened in a manner most distasteful for the operators.

### The President Gone to Baltimore—The Washington Races—Another Government Swindle.

WASHINGTON, November 20.—The President and about one thousand members of the Masonic order left here at an early hour this morning, to attend the laying of the corner stone of the new Masonic temple in Baltimore. The usual Cabinet meeting is deferred until tomorrow.

The Washington races open finely. Dexter and Patchen arrived to-day.

The Indian Bureau is again laboring under the distress of an unmistakable implication with a swindle upon the Government under the guise of a contract for the sum of eighty thousand dollars. An investigation is going forward.

General Sweeny, of Fenian notoriety, is here, and says that great things may be looked for from the brotherhood before the month is out.

### Slidell Applies for a Pardon—General Sherman's Destination.

NEW YORK, Nov. 20.—A *Herald* Washington special says: Mr. Slidell, the once famous rebel Minister to France, and one of our most active enemies in Europe, recently applied to the Government for pardon through Mr. Bigelow, Minister at Paris. The reply of the Government was that no intercourse or correspondence of any kind could be held with Mr. Slidell.

A *Times'* Washington special says: It is understood that General Sherman and L. D. Campbell, Minister to Mexico, will first land at Tampico, and failing to find there the representation of the Mexican Republic will then go to Vera Cruz.

### The Otero Murder—Trial of Viele.

NEW YORK, November 20—Francesco Viele was yesterday morning arraigned in the Kings County Court of Oyer and Terminer, indicted for the murder of Jose Garcia Otero, on the 22d of November, 1865. The prisoner pleaded not guilty. His two accomplices were executed a short time since.

CAUTION.—The above Remedies have now been before the public many years, and their great success in the alleviation of human misery, has excited the cupidity of several parties, who use the name "Specific Pills," copy my labels, circulars and advertisements, sometimes word for word, and put up worthless compounds that disappoint the just expectations of the purchaser.

**JOHN D. BAILEY,**
Stock and Real Estate Broker.

FOR SALE—400 Acres of Coal Land, lying immediately upon the Ohio River, 20 miles below Gallipolis, and 185 miles above Cincinnati. On the above tract is a four foot vein of Coal, which, for general purposes, is not surpassed. It is entirely different from the Southern Ohio Coal; contains but little sulphur, forges and cokes well, and for making steam cannot be excelled. The location being about midway from Pomeroy and Hanging Rock, must make it valuable for coaling boats. There is a water front of ¾ of a mile, with a good landing at all stages of the river. An entrance has been run in the hill about 300 feet, track finished to river, together with the necessary fixtures for mining and delivering coal afloat. On said tract is first-class double Portable Circular Saw Mill together with a Portable Grist Mill, all in good running order, and plenty of the very best oak, ash and poplar timber. Would sell one-half interest if desired, to a party with experience and capital for working same.

FOR SALE—231 acres Coal, including 51 acres Surface, on the East side of the Ohio River, three miles above Wheeling, with right of way to river. The close proximity to a good market at Wheeling, together with the fact that the coal crops out high enough in the hill to be used profitably for rolling mill purposes, makes this a good investment.

PURE CALIFORNIA WINES.
**GURNER & CO.,**
No. 80 Cedar St., New York,
Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State suitable for sale:

WHITE, or HOCK WINE—Of a light straw color, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jellies. It is a fine dessert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner, whose stomachs are out of order and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.

### The Louisiana State Fair.

NEW ORLEANS, November 20.—The great event of the day has been the opening of the First Louisiana State Fair, at the fair grounds, four miles from the city; over thirty thousand people were present. Mozart's twelfth mass was sung by over fifty artists, and a grand orchestra, with a pontifical grand mass, celebrated by the Most Rev. Arch Bishop Odin, began in the morning at twelve o'clock.

The regular opening ceremonies were begun with prayer by the Right Reverend Bishop of Louisiana, Dr. J. P. B. Wilmer, assisted by his Protestant Episcopal clergy. Addresses were then made by Isaac N. Marks, Esq., President of the Association, and by Judge William Burwell, in English, and Judge Victor Burthe, in French, the orators of the day. Immense quantities of machinery and implements are on the grounds, and more is arriving; also horses, horned cattle, and other improved stock. It promises to be the starting point of a new era of unexampled prosperity to the Southwest.

**NOTICE TO CONSUMERS OF WATER.**—The repairs now in progress at the Water Works render it imperative that great economy should be observed in the use of water, the one engine now running being taxed to its utmost capacity. All unnecessary waste of water should be avoided, such as sprinkling streets, washing pavements, drenching clothes in tubs to an inordinate extent, &c. Unless there is proper attention paid to these requirements the city will not have sufficient water for fire, culinary and other necessary purposes. A non-observance of this caution may deprive the offender of a supply of water, as well as entail a heavy fine.

It is hoped that in the course of three weeks or a month, at furthest, the Superintendent will be enabled to remove these restrictions.

## FINANCE AND TRADE.

TUESDAY, November 20, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows: Gold, 141¼; 1881's, 113¼; 5-20's old, 108⅝; do '65, 106⅛; 5-20s, new 108⅝; 7-30s, 1st series, 106; second and third, 105¼. Michigan Southern R. R., 83¾; Cleveland & Pittsburgh, 86¾; Pittsburgh, Fort Wayne & Chicago, 107⅝; Erie R. R., 79; Union Telegraph Company, 47¾; Chicago & North Western, 52½; Chicago & Rock Island, 105¼.

The market, it will be seen, is unsteady. Gold and Governments both down, and a little lower. Fort Wayne & Chicago Railroad a shade weaker, while the balance of the last has recovered somewhat from the extreme points touched on Saturday. Cleveland & Pittsburgh has risen 1¼. Michigan Southern, ¾. Erie, 1¼. Western Union Telegraph, 2¾. Chicago & Northwestern, 2¾. On the whole, the tone of the market is better, though, by no means strong.

The local market opens with about the same inquiry for bank shares noticed in our last report. Sales of M. & M. National at 65. Par bid for Fourth National. Sales of Citizens National at 62—(a small lot) same bid for more. Tradesmans offered at 110¼. Exchange wanted at 63. 118 bid for Second National. 82 bid for Iron City. Nothing doing in Railroad shares, save small lots of Allegheny Valley Railroad changing hands at 16@16¼. Oils very heavy—no sales to report for the day.

—In noticing the recent material decline in gold, the Philadelphia *Ledger* says:

It was at first thought that the decline was caused by the "bulls" who, by letting it down, hoped to induce "short" sales, but the decline has been too steadily downward and too long continued to justify that theory. The report that the Secretary is selling gold probably has no better foundation in fact. Instead of inquiring why gold falls, we had perhaps, better look for reasons for its rise from its low point of 125 to 155, as it had ruled within a comparatively short time. Within a month the decline has been 13 or 14 per cent, attended with several ups and downs in the time, but with a steady downward tendency.

The operators in gold for a rise have evidently lost control of the market for the time, and as the demand for the custom duties are lighter than they were, and rumors more and more current of a probable tightening up of the money market, they are not likely to regain the control they seemed to hold of running the premium up and down at pleasure. Business men and the people at large begin to see that there is no cause for a high premium on gold; that the resources of the country and Government and the large stock of specie, both in the vaults of the Treasury and in the hands of the community, afford a sufficient guarantee against any scarcity for all legitimate wants short of a resumption of specie payments, which, perhaps, is more remote than many hope for. Unless the country is nearer a financial revolution than there is any just cause to apprehend, the occupation of the "bulls" in gold is lost, at least for the present.

—The act of Congress approved April 12, 1866, authorized the Secretary of the Treasury to fund Treasury notes and other national obligations: "Provided, That of United States notes not more than $10,000,000 may be retired and cancelled within six months from the passage of this act, and thereafter not more than $4,000,000 in any one month." During the past month of October, $3,959,507 of United States notes were withdrawn, but probably all over $4,000,000 were funded prior to the 12th, and were thus included in the six months' limitation. Henceforth, only $4,000,000 per month can be funded. It is the duty of the Secretary of the Treasury, by law, to report to Congress at the commencement of the next session the amount of exchanges made, and the amount of indebtedness required, with the names of parties interested, and a detailed statement of the expense of making such loans and exchanges.

—The New York *Financial Chronicle*, of Saturday, says:

"The condition of commercial affairs has a tendency to inspire a somewhat unusual caution among the branches of manufacturing and trade there is an uneasiness respecting credits. Large accommodation is asked in order to enable manufacturers to carry stocks of goods at high prices. On the other hand, merchants in the interior, finding their collections to come in slowly, are asking for an extension of their obligations to New York houses, and failures are occurring under circumstances which, if the present unsound condition of affairs, naturally excite a degree of uneasiness and apprehension. At the same time a heavy fall in the price of stocks during the week, with the fear entertained by some that it may develop into a panicky rush to realize, has produced a degree of caution in making advances upon stocks to other than well-known firms. Discounts cannot be reported active, although there is an unusually large amount of paper offering for sale. Produce and dry goods commission paper is subject to a more than usually close scrutiny. Prime names are current at 6@7 per cent."

## ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, November 20, 1866.

### CATTLE.

The receipts of cattle were unusually light this week, not exceeding, if reaching, nine hundred head, but the supply, nevertheless, was fully up the demand, and a small number were left over. The market was devoid of life or animation, there being no eastern buyers in attendance, and, so far as we could learn, there was not a single bullock sold for shipment. As compared with last week, however, prices have undergone no perceptible change, prime to choice retailing cattle selling at from 7 to 7½ cents per pound, gross, fair to good 6 to 6½, and common at 4½ to 5.

### SHEEP AND LAMBS.

There was a fair supply of Sheep on sale, but with a moderate demand, the best of them sold without much difficulty at 5½ to 5¾, while common may be quoted at 4¼ to 5. Kerwin & Crum retailed a mixed lot at prices ranging all the way from 3½ to 5½; and Ewart & Co. retailed 182 head at from 4½ to 5¾. There were other sales at about the above range of prices, and it should be borne in mind that nothing but prime fat mutton Sheep will bring the outside quotations. Lambs remain quiet and unchanged.

### SWINE.

Are coming in pretty freely, and with only a moderate demand, buyers being apprehensive that the bottom has not yet been reached, take hold very cautiously. Kerwin & Crum retailed 30 head of prime at 8 to 8¼, gross, and 16 head at 7¾ to 7½; Emerick & Co. 106 head 7½ to 8¼—a few extra at 9. Hawkins sold Bellstene 56 head common at 6. In a retail way, good fat Hogs cannot be quoted above 7 to 7¼ cents, as there is no margin for shipment above these figures.

### REPORTED SALES OF CATTLE.

Glass & Lafferty retailed 59 head at 4 to 7¼—39 head left over. Kerwin & Crum 10 head at 4¾ to 5¼. G. C. Crum sold Peter Fairley 2 pairs of fat oxen—one pair weighing 3650 lbs, at 7, and the other, weighing 3275, at 6¼.

Lebois sold Hazlewood & Co. 48 head of good Illinois steers, weighing 56,960, at 6¾. R. Robinson retailed 22 head at 5 to 6½. P. Hartman 13 head at 7 to 7,40. Hazlewood & Co. 46 head at 6¾ to 7¼. Marks & Trauman 141 head at 5⅜ to 7¼.

Myers & Needy sold 30 head of stockers to Hudson at 5¼; retailed 100 head at 5¼ to 7½. Greenwald & Kahn 56 head at 6¼ to 7¾. Emerick & Co. 12 head at 4 to 7.

Good & & Kurtz sold 36 head—mostly bulls—at 3¼ to 5¼. Merrick & Doud, 33 head; L. Rothchilds, 30; Kraus & Haas, 46; Carr & McAllister, 77.

## PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, November 20, 1866.

CRUDE—There is no improvement to note in the demand for Crude, and while the market is dull and weak, prices have undergone no further change. We continue to quote at 10 to 10¼, bbls returned and in bulk, and 15 to 15½, bbls included. Sale of 550 bbls (42 gravity) at 10¾; 1100 (39 gravity) at 10¼; 1000 (41½ gravity) at 10; 1100 (41½ gravity) at 10, and 550 (40 to 45 gravity) at 10. The arrivals thus far have not been as large as generally predicted, but as the river is still in excellent boating condition, the receipts will doubtless be large before the week has passed. The demand is light, both for present and future delivery, and while holders are anxious to realize, they do not, at present, seem disposed to make any further concessions in order to effect sales. That the market is in a very precarious condition is generally conceded, and operators are puzzled to know which course is the proper one for them to pursue.

REFINED—The market for bonded oil continues dull and neglected, and what is worse still, there are no indications at present of any immediate improvement. We have but two sales to report: 1000 bbls for February delivery, in Philadelphia, at 35, and 500 bbls "standard white," for same delivery, at 36. For this month and December, 33 to 33½ seem to be about the best offers that can be realized. Free oil is dull and neglected—standard brands may be quoted at 49 to 50c, in small lots.

ARRIVALS—The following arrivals of oil were reported to-day:

| | | | |
|---|---|---|---|
| Jas. Wilkins | 1985 | D. Bushnell | 3360 |
| Fisher & Bro | 675 | W. P. Logan | 2700 |
| Forsyth & Bro | 750 | Barbour & Co | 55 |
| D. Bly | 424 | | |
| Brewer & Burke | 110 | Total | 10,044 |
| McCreight & Co | 55 | | |

### Wool.

The Detroit *Post*, of Saturday, says: The market has become duller, and duller, and the price is purely nominal at 45c. A gentleman well posted in the condition of the market, who is direct from Boston, assures us that never—save perhaps in 1862—has there been so blue a time in Boston as has been experienced there during the past three weeks. Large amounts of wool are held by weak parties, who are absolutely compelled to realize, and they are wholly at the mercy of the buyers, who, it must be confessed, are not warranted in buying, except from hand to mouth. Holders are constantly importuning manufacturers to take a look at the stocks in their lofts, but the latter class generally reply point blank that if they "have any good wools at 50 cents they will take a look at them, but otherwise it is useless to do so." As an illustration of the depressed condition of our woolen interest, a jobber from Chicago, who knows whereof he speaks, states that goods can be purchased at lower rates in the United States for greenbacks, than the same styles can be had for in Canada for silver.

## PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, November 20, 1866.

There is no improvement to note in the general tone of the produce markets. Dullness and stagnation seem to be the leading characteristics, and in some articles there is a slight panic, and considerable of a decline, which is owing to the violent reaction in Chicago. Besides, the demand for most of the leading commodities is restricted almost entirely to supplying the immediate wants of retailers and consumers, and, consequently, we have but few round lot operations to record.

GRAIN—Wheat is dull but unchanged; sale of 1 car No. 1 Spring at $2,60. Barley is dull and unsettled; Spring may be quoted at $1 to $1,05—choice, $1,10. Sale of 2 cars new Ear Corn, in elevator, at 55, and 2 cars of prime old Shelled—on Monday—at $1,05. The market is completely glutted with new corn. Sale of 1 car Oats at 50, and 150 sks at 53. Rye is in demand at $1,20 to $1,25.

FLOUR—There is no improvement to note in the demand for this article, and while the market is dull and weak, prices have undergone no change. We continue to quote good to choice brands of Spring Wheat at $12¼ to $12½ and Winter Wheat, $13¼ to $14. Rye Flour is quoted at $8¼ to $8½. Small sales of Buckwheat in store at $4 to $4½ per cwt.

BUTTER—There is a moderate demand for prime Roll Butter, with sales at 30 to 32, but there is inquiry for common packed, in consequence of the fact that there is no margin for shipment.

EGGS—Demand fair, supply light, and market firm, with regular sales at 34 to 35.

CHEESE—Continues quiet and dull, with a supply considerably in excess of the demand, but prices remain unchanged.

APPLES—There is no apparent falling off in the receipts, and as the demand for shipment is subsiding, the supply in the market is accumulating, and prices are barely maintained. We quote in a regular way from store at $2 to $3 per bbl, as to quality.

HAY—Is in good demand and a shade higher; sale of 58 bales, prime, on wharf, at $26 per ton.

POTATOES—Peach Blows may be quoted at $2¼ to $2½ per bbl., and Jersey Sweets at $5 to $5½ per bbl, as to quality.

SEEDS—Flaxseed is in good demand, and we can report sales at $3 to $3,10. Timothy Seed is quoted dull at $3, in store. No demand of any moment for Clover.

SALT—Is steady, with a fair demand. Sales at $2,80, by the car load, and $2,90 to $3, in store.

SORGHUM—Is in fair demand but unchanged; may be quoted at 65 to 68—the outside figure for prime.

HOMINY—Is selling at 3½.

## MARKETS BY TELEGRAPH.

### New York Financial Matters.

NEW YORK, November 20.—The money market was more active at 5@6 per cent. Sterling 108¾@109. Gold firmer, opening at 141⅛, advancing to 141¾, declining to 141, and closing at 141¼. Government stocks are a shade firmer. Freights to Liverpool quiet and unchanged. Stocks are steady; Fort Wayne, 107; Northwestern, 51½; Cleveland and Pittsburgh, 86¾; Illinois Central, 120½; Michigan Southern, 83½; Reading, 114⅛; Erie, 78¾; New York Central, 110¾; Rock Island, 105½; Western Union Telegraph, 47¾; Seven-Thirties, second series, 105¼; Five-Twenties, Coupons of 1862, 108⅝; do, 1865, 106⅛.

Prices of mining stocks in Boston this day: Canada, 60; Copper Falls, 42½; Franklin, 44¾; Hancock, 17; Huron, 37; Isle Royal, 11½; Minnesota, 14¼; Water Power, 30¼.

The *Commercial's* money article says: The Money market shows considerable activity, owing to large transactions in securities, and rates are firm, but not quotably changed from those of yesterday. Some of the Banks are asking 7 per cent., but probably from exceptional reasons. The general rate, however, on stock collaterals is 6 per cent. The Government brokers have money offered freely at 5 per cent. Discounts quiet, with large amount of paper offering. Banks very generally decline paper under 7 per cent., but on the street sales of prime names are effected at 6½@7 per cent. In the Stock market the battle between the "Bulls" and "Bears" is fiercely maintained, the latter having for the moment the ascendancy. Governments show a general reaction from the depression developed yesterday morning. The decline brought out a large amount of orders from the interior and from financial institutions in this city who had recently realized upon higher prices. Some of the foreign bankers were also buyers. Foreign Exchange continues very dull. Prime sixty days sterling is quoted at 108¾@109; three days, 109½@109¾; francs, long date, 516¼@516¾.

The *Post's* money article says: The Loan market is active at 6 per cent with exceptional transactional at 5@7. There appears to be less drain of currency to the interior, and money is less stringent in Western cities. The Stock market opened strong, became weak, and closed with an upward tendency. Rumors of increasing activity in money have some effect in depressing the speculative feeling. Governments are ¼@½ per cent. higher than yesterday. Railroad shares are unsettled; after the regular board the quotations were: N. Y. C., 108¾; Erie, 78¾; Hudson River, 122½; Reading, 113⅝; Michigan Central, 112; Michigan Southern, 83¾; Illinois Central, 119; Pittsburgh, 85½; North Western, 52; do preferred, 72½; Toledo, 114; C. & R. ## RIVER NEWS.

The river continues to recede slowly at this point with over seven feet in the channel by the Monongahela marks last evening. The weather continues cloudy and unsettled, with occasional showers of rain, and business is somewhat retarded at the landing in consequence, although very dull at best.

The Peerless arrived from Oil City since our last report, and the Urilda left for that point last evening. Tow boating appears to be pretty brisk on the Allegheny at present, but the competition for business is so great that returns are comparatively small. There are some very fine tow boats engaged on this stream.

The arrivals since our last report include the Argosy and Rob Roy, from Cincinnati, Luella, from St. Louis, and the Leni Leoti, from Parkersburg. The Argosy had a very good trip, having among other items of freight over fourteen hundred barrels of flour.

The departures were the Ezra Porter, for St. Louis, and the Armenia, for New Orleans. The Porter had a cargo of railroad iron, intended, we presume, for the Pacific Railroad. The Armenia had a very good trip, although she was not quite loaded down. Her cargo consisted mainly of iron, nails, glassware, etc., etc.

We noted in our last issue that the towboat Lake Erie had stuck one of her barges at "Horse Tail." Subsequently, attempting to get it off she sunk it. The towboat Collier broke her rock shaft down near Wellsville, and after landing and tying up her tow, she returned back to the city for repairs.

J. Sharp McDonald and Mr. A. Dippold, coalmen, left for Louisville yesterday by rail. Mr. McDonald intends starting his boat, A. J. Baker, from that place to New Orleans with a tow of coal.

The Silver Cloud arrived at Cincinnati on Sunday, en route for St. Louis, with a full cargo in the boat and barge, one item being 1800 barrels of oil, which she got at Parkersburg.

The Messenger, Capt. Jesse Dean, was loading at New Orleans for the Ohio River on Tuesday of last week.

Capt. A. McGowan, of the Upper Mississippi packet, Bill Henderson, was to have left St. Louis for Pittsburgh on Monday. Capt McGowan has been absent from home for some nine months, and we are gratified to learn that he has enjoyed excellent health.

The Bellevernon was to have left St. Louis for Pittsburgh on Saturday last. The Kate Putnam passed through the canal at Louisville on Sunday last.

The Argosy, Capt. Vandergrift, with Mr. W. H. Scott in the office, is the regular packet for Cincinnati to-day, leaving promptly at 12 o'clock, and passengers and shippers should bear this in mind.

The Glasgow, Capt. Geo. W. Johnson, is filling up rapidly for St. Louis, and will take her departure to-morrow. The Glasgow is a neat and staunch packet, and has excellent accommodations for passengers.

The Silver Lake No. 3, Capt. Todd, is filling up rapidly for Cincinnati and Louisville, and will positively leave this evening. Passengers and shippers should make a note of this fact. The R. C. Gray, Capt. Anderson, is next in turn after the Silver Lake.

Capt. Charles Barnes, we are pleased to learn, intends turning his attention again to the steamboat agency business. Captain Barnes is well known as an old steamboatman and steamboat agent, as it will be remembered he was in the agency business at the breaking out of the war. He served his country faithfully and well as a soldier, and we know that in the capacity of agent, he will serve our steamboatmen equally as well. Captain B. is now acting as agent for the Glasgow, Argosy and Quickstep.

Capt. Hare has certainly great reason to be proud of his new steamer the "Glendale." She is certainly one of the finest stern-wheel boats that has ever been turned out in the Western country, and this saying a good deal. In point of style and finish she is all that could possibly be desired, and will compare favorable with any boat of her class on the Western waters, and no pains or expense has been spared in her construction. Besides being tastefully and handsomely painted and furnished, and supplied with all the latest improvements and conveniences, she is well put together; all the material used in her construction being of the very best quality. The dimensions of this fine steamer are as follows: 160 feet in length; 35 feet beam; and 6 feet depth of hold. She is supplied with three boilers, 2 flues each—24 feet long and 38 inches in diameter; cylinders, 17 inches, and 6 feet stroke. The former were built by James Thorn & Co. and the latter by Hardapee & Co. The painting is regarded as an excellent job, and we have no doubt will please even the fastidious river editor of the Cincinnati *Commercial*, who is said to be an admirer of "fine arts." The painting was done Boggs & Co.; sheet iron work by Sheriff & Megraw and Jas. Riter; blacksmithing by J. H. Douglas; blocks by Davage & Roberts; outfit by Evans, Gilmore & Dallas; spars by Motheral & Co.; furniture by Hardy & Co.; carpets by McFarland & Collins; upholstery by Edmundson & Co.; lamps by Sheriff & Megraw. The hull was built by Messrs. McClosky & Kerr, of Freedom, Pa. She is furnished with spring beds and hair mattrasses, and Brussels carpets.

The Glendale is now loading for St. Louis, and will probably be ready to take her departure to-morrow. Capt. Jas. Mellon has charge of the office.

Capt. Lytle requests us to state that the Camelia will probably be ready to leave for Nashville on Thursday, and shippers should hurry down their freight.
